

Features& Benefits

Our sturdy wire mesh container can store up to 2000kgs of material and can be stacked 4 units high.

Available from 5mm to 14mm galvanized welded wire mesh. Legs are wrapped welded around the base—no edges to scratch floors or people.

Convenient drop gate design for easy access to products. Double wire reinforcements at load-bearing surfaces and top edges. Base inside walls protect contents from damage.

Open wire mesh design allows for full visibility for inventory checks, ventilation and cleanliness. Four-way entry for easy use with Lift Trucks.

Remarks: We can design according to your need.

CHARACTERISTICS	
Exterior Dimension	L 1000 × W 840 × H 830mm
Interior Dimension	L 950 × W 760 × H 700mm
Weight	48.8kg
Capacity	1300kg
Stackability	N/A
Folded Height	235mm
